

SAHIL LUTHRA

Software Engineer

writetosahil09@gmail.com | +91-7082760377 | [LinkedIn](#) | [GitHub](#) | [LeetCode](#) | [Portfolio](#)

Software Engineer with 1+ year of experience building scalable web and mobile applications across government, healthcare, research, and startup ecosystems. Experienced in developing production-grade platforms, reusable component architectures, workflow-driven applications, and API integrations. Solved 500+ DSA problems and passionate about software engineering, system design, and product development.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, PHP, C++, HTML5, CSS3
- **Frontend:** React.js, Next.js, React Native, Redux Toolkit, Bootstrap, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MongoDB, MySQL, Oracle SQL, Supabase
- **Tools:** Git, GitHub, Docker, Postman, Jira, Vercel, Render, Figma
- **Concepts:** DSA, Authentication, RBAC, State Management, API Integration, Agile/Scrum, Responsive Design

PROFESSIONAL EXPERIENCE

National Informatics Centre (NIC) – Ministry of Home Affairs, Government of India

Software Developer Intern (React.js) | Jan 2026 – Present

Contributing to the FCRA Online Portal, a Government of India platform serving thousands of NGOs and regulatory authorities nationwide.

- Engineered 15+ reusable React.js components, accelerating feature delivery and ensuring consistent user experiences across applications.
- Implemented 10+ workflow-driven multi-step forms with advanced validation and API integrations, streamlining data collection and processing.
- Designed dashboards and reporting interfaces enabling real-time tracking of applications, compliance activities, and operational metrics.
- Enhanced frontend performance and streamlined API interactions, improving page responsiveness
- Collaborated with cross-functional teams to deliver scalable, production-ready features following Agile development practices.

AndroWebstech Pvt. Ltd.

Full Stack Developer Intern | Oct 2024 – Apr 2025

Delivered 4+ production-grade web and mobile applications across healthcare, research, and content-management domains.

- Engineered the React Native frontend for a government healthcare grievance platform, integrating 10+ APIs for complaint management workflows.
- Created a bilingual patient-feedback kiosk system featuring a 5-level rating model and real-time analytics dashboards.
- Crafted 20+ reusable UI components and administrative modules using React.js, TypeScript, PHP, and MySQL.
- Implemented authentication systems, payment gateways, and reporting solutions across multiple client applications.
- Participated in end-to-end software development, deployment, testing, and feature enhancement cycles.

PROJECTS

Wisdom Wave – Learning Management System [Visit Website](#)

Technology Stack: MERN Stack

- Architected a full-stack LMS supporting students, instructors, and administrators.
- Implemented JWT Authentication and Role-Based Access Control across 10+ secure application modules.
- Delivered course enrollment, progress tracking, content delivery, and performance analytics capabilities.
- Built a recommendation engine using collaborative filtering techniques to personalize learning experiences.
- Architected scalable REST APIs and improved database operations for efficient content management.

MediCare (AI Medical Voice Agent) [Visit Website](#)

Technology Stack: Next.js, TypeScript, Vapi, PostgreSQL

- Built an AI-powered medical voice assistant supporting real-time consultations and automated report generation.
- Integrated LLM-based conversational workflows, processing 10+ voice interactions and generating structured medical summaries.
- Developed a scalable Next.js frontend, reducing consultation workflow steps by ~40%.
- Designed PostgreSQL-backed data management for 1,000+ consultation records and conversation histories.
- Implemented Vapi AI voice pipelines, reducing manual documentation effort by approximately 60%.

EDUCATION

J.C. Bose University of Science and Technology (YMCA), Faridabad
(Bachelor of Technology – Computer Engineering | 2022 – 2026)
